

Full Stack Mobile Developer (React Native & C#)

Company Overview:

Established in 2010 and headquartered in Singapore, BIPO is a trusted provider of payroll and people solutions in **over 170 global markets**.

Our comprehensive HR offerings include **Human Capital Management solutions**, **Global Payroll Outsourcing**, and **Employer of Record services**, powered by our award-winning HR Management System and Athena BI (Business Intelligence) platform.

At BIPO, we deliver customised services and scalable tech-enabled solutions that automate processes, simplify workflows, and generate actionable insights.

Responsibilities:

- Design, develop, test, and maintain full stack mobile applications using React Native (frontend) and C# (backend).
- Collaborate with design, product, and other stakeholder teams to understand requirements and translate them into technical solutions.
- Develop responsive, intuitive, and high-performance user interfaces.
- Build and maintain robust and secure APIs using C#.
- Implement best practices in software development, including code review, unit testing, and integration testing.
- Identify and fix bugs and optimize application performance.
- Stay up to date with the latest technologies in mobile and backend development.

Requirements:

- Minimum 2-3 years professional experience in mobile application development with React Native.
- Required: In-depth understanding and strong experience with React Native version 0.63.5 or higher.
- Strong expertise in backend development using C# and .NET/.NET Core.
- Experience with relational database management (e.g. SQL Server, PostgreSQL).
- Understanding of RESTful API concepts.
- Experience with version control such as Git.
- Ability to work independently and in a team.
- Strong communication and problem-solving skills.
- Ability to write clean, structured, and maintainable code.
- Experience with Android Studio / XCode is a plus.
- Portfolio of released mobile applications (if any) is a plus.
